

KOMEA Mission & Vision

Established under the Small and Medium Business Cooperative Act as a non-commercial organization, KOMEA aims to promote the development of marine equipment industries, establishing a fair & efficient business environment.

Objectives

- **Provide assistance to the marine equipment industry, specifically in its promotion and development**
 - Expand the domestic marine equipment product base and improve the quality
 - Provide a variety of support measures for marine equipment companies to advance into global markets, supported by the Government pursuing global co-prosperity and collaboration.
 - Streamline the sub-contracting production system and strengthen cooperation between subcontractors and contract-order enterprises
 - Facilitate technical cooperation and joint venture operation
 - Collect & disseminate market information, intelligence and technological insight, conducting data analysis and producing relevant publications
 - Furnish data for industrial policy development and recommend policies to the government
- **Engage in public relations services to enhance trade promotion**
 - Assist export and import activities
 - Publish general catalogue & directory
 - Participate in international exhibitions and trade fairs
 - Cooperate with overseas marine equipment organizations and other related stakeholders
- **Joint purchase and sale**
 - Arrange joint purchase of raw materials
 - Facilitate funding of joint undertakings
